

SCANCODE

— FROM INSPIRATION TO IMPRINT —

Your Trusted Partner for Precision Label Manufacturing and Auto Identification Solutions.

At ScanCode Auto ID Technology Pvt Ltd, we are more than just a company; we are your dedicated partner in precision label manufacturing and cutting-edge auto identification solutions.

Our journey began in 2016 as "Panth Enterprise," backed by over four years of expertise in the Automatic Identification and Data Capture (AIDC) industry, with our roots firmly established in Vapi. In 2021, we took a strategic leap by acquiring an 18-year-old Self-Adhesive Plain and Pre-Printed Manufacturing Company in Ahmedabad, marking the birth of "ScanCode Auto ID Technology Pvt Ltd." While our registered office proudly remains in Vapi, our state-of-the-art manufacturing facility is in Ahmedabad.

In 2023, we raised the bar of excellence with a significant investment in Multitec S1-8 Colour LED UV machines. This transformative technology enables us to deliver high-quality labels globally, catering to a diverse range of industries, including Pharmaceutical, Healthcare, Automotive, FMCG, Food and Beverages, Agrochemicals, Chemicals, Cosmetics, and Home Care Products.

Why Choose Us?

Our Commitment to Uncompromising Quality:

At ScanCode Auto ID Technology Pvt Ltd, we are unwavering in our commitment to delivering the highest quality. Our labels are more than mere identifiers; they embody durability and resilience. Precision-crafted, they ensure clear, legible barcode and RFID information, facilitating seamless data capture and efficient inventory management.

Tailored Labels for Diverse Industries:

Recognizing that every industry has unique labelling needs, we offer a wide range of product labels designed to meet the distinct requirements of various sectors:

Pharmaceutical Labels:

Meeting stringent regulatory requirements, tracking and identification, emphasizing safety, our pharmaceutical labels ensure precise security, and compliance.

Healthcare Labels:

Critical in-patient safety and healthcare management, our labels maintain clarity and legibility, even under demanding healthcare conditions.

Automotive Labels:

Designed to endure extreme conditions, our automotive labels withstand temperature variations, chemicals, and wear, ensuring lasting product identification.

FMCG Labels:

For Fast-Moving Consumer Goods, our labels combine durability with visually appealing designs, ensuring a standout presence in a competitive market.

Food and Beverage Labels:

Crucial for consumer safety and brand trust, our labels withstand environmental factors, ensuring the delivery of essential information.

Agrochemical Labels:

Accurate identification is paramount for safety and compliance in the agrochemical industry, and our labels are up to the task.

Chemical Labels:

Providing clarity and durability, our chemical labels endure exposure to various chemicals and challenging environments.

Cosmetics Labels:

Combining aesthetics with durability, our cosmetic labels contribute to a premium image for cosmetic products.

Home Care Product Labels:

Essential for clear usage instructions and branding, our labels withstand typical household conditions while offering vital information.

A Wide Variety of Label Materials:

We offer an extensive range of label materials to cater to the specific requirements of different applications:

Chromo Labels:

Ideal for product branding with their glossy appearance and excellent printability.

P.P. White or Clear Labels:

Known for their durability and resistance to moisture and chemicals, making them suitable for various industries.

PET Labels:

Selected for their durability, resistance to tearing, and dimensional stability, commonly used in tough label conditions.

Synthetic Labels:

Designed to endure extreme environments, ideal for outdoor and industrial applications with resistance to chemicals and moisture.

Shrink Sleeves:

A versatile labelling option for irregularly shaped containers, offering full-body coverage and ideal for branding and promotional packaging.

Flexible Packaging:

Offering lightweight and cost-effective packaging solutions for food, pharmaceuticals, and more.

In-Mold Labels (IML) :

Seamless & Durable: Our In-Mold Labels (IML) are integrated directly into the product during molding, creating a smooth, label-free feel with enhanced durability.

Complete Barcode Solutions:

In addition to label manufacturing, we offer tailor-made software solutions and barcode-related products to enhance your business operations:

Leading Brands for Barcode-Related Products:

Providing barcode printers, scanners, mobile terminals, and equipment from renowned brands.

Thermal Transfer and TTO Ribbons:

We offer a wide range of high-quality Thermal Transfer (TTR) and Thermal Transfer Overprinting (TTO) Ribbons designed to meet the diverse printing needs of various industries. Our ribbons are engineered to deliver superior performance, ensuring clear, durable prints that enhance product identification and traceability.

We provide three main types of ribbons:

Wax Ribbons: Ideal for printing on paper labels, our wax ribbons are cost-effective and deliver crisp, clear prints. They are perfect for general-purpose labelling applications where durability is not the primary concern.

Wax-Resin Ribbons: Offering a balance between cost and durability, our wax-resin ribbons are suitable for printing on both paper and synthetic labels. They provide enhanced resistance to smudging and scratching, making them ideal for more demanding environments.

Resin Ribbons: For the most durable and long-lasting prints, our resin ribbons are the best choice. They are designed for printing on synthetic labels and materials that require high resistance to chemicals, abrasion, and extreme conditions.

Batch Coding Solution:

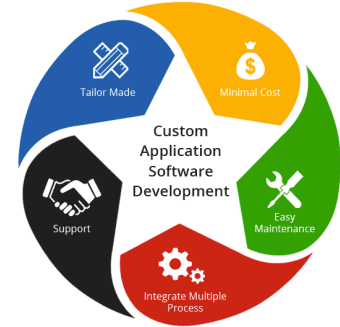

We specialize in providing reliable Batch Coding Solutions using advanced technologies like Continuous Inkjet (CIJ), Thermal Inkjet (TIJ), and Laser Marking. Our solutions are designed for precision and efficiency, catering to various industries' needs. We also offer Label Applicators and Conveyors to streamline production processes, ensuring accurate labelling and smooth operation. Trusted by companies like Nilkamal Limited, our solutions ensure high-quality coding, product traceability, and compliance with industry standards.
